

cause a circulation of money and make better times. Finding that the disallowance question was really not one of rates but rather one of getting more railways to the south, he (Mr. Perley) concluded after carefully considering the question that it would not be in the interests of his constituents to incur the hostility of the C. P. R. for the sake of hauling the Winnipeg chestnuts out of the fire. He therefore voted against disallowance. He would in conclusion give his impressions of the House of Commons. He thought all things considered that Sir John had the strongest government ever he had since Confederation, and the Government gave the House credit for being the ablest Canada ever had. He thought Mr. Blake to be a man of superior knowledge and influence. It was to be regretted that the services of a man of Mr. Blake's ability should be lost to House and country. There was one thing noticed and that was the difference in the cordiality of the leaders of the House. There were more smiles and personal good feeling coming from Sir John in one afternoon than from Mr. Blake, Mr. Cartwright, Mr. Mills, Mr. Laurier and Mr. Charlton put together during the whole session. Mr. Perley again thanked those present for the splendid ovation they had given him, when he sat down amidst the most enthusiastic applause. He was frequently cheered and applauded during the delivery of his speech of which the above is necessarily an epitomized report.

The next toast was "The Northwest Council." This was responded to by Mr. T. W. Jackson who said he was very much gratified to be present to render this mode of respect to our worthy representative. He eulogized Mr. Perley highly and from an Assiniboia standpoint justified Mr. Perley's action on disallowance. During the course of Mr. Jackson's speech he stated that the Wood Mountain and Qu'Appelle Railway Company would be the only railway company that would be able to turn a sod of railway in the Northwest this year. Mr. W. Sutherland, M. N. W. C., also responded to this toast.

The other toasts usual on such occasions were drunk and responded to, but time and space forbids us referring to them in detail.

The only other toast we can refer to is that of "Our sister provinces," which was responded to by Mr. W. A. Webster, of Kingston, Ont. Mr. Webster said it gave him very great pleasure to be present to do honor to the guest of the evening. It gave him double pleasure to hear the toast of "Our sister provinces" so well responded to. He said that Mr. Perley's constituents had done themselves an honor in giving their representative such a magnificent ovation. Mr. Webster went on to speak in glowing terms of the agricultural resources of the Northwest. He said he had heard of the big four year old steers, but when it came to four year old towns he had never expected to see anything so big as there was here at Qu'Appelle. Why they had towns down in the part of Ontario where he came from that were thirty years old and they were not as big as Qu'Appelle. Mr. Webster went on in a most happy strain to speak of various matters that had come under his notice on his tour through Manitoba and the Northwest and elicited frequent cheers and applause. He closed his speech with a splendid penetration on the warm feelings that existed between the sister provinces in the east and those in the west.

The banquet closed in the usual way and as those present rose from their seats they gave Mr. Perley threeousing cheers and a tiger.

— Go to G. L. Dodge for cheap goods. He will sell cheap to those paying freight on goods.

—Waghorn's Dairy and Hender son's Pocket Gazetteer and Traveler's Guide at The Phoenix's store.

The Qu'Appelle Progress

Is Published every Thursday
At The Progress Printing Office, in the
Town of Qu'Appelle, Assiniboia, Canada.

Subscription price: \$1.00 per annum, in
variably in advance; single copies 5 cents.

The rates for our advertising space by
contract are as follows:

	One	Two	Three	One
	month	months	year	year
One column	\$10.00	\$15.00	\$25.00	\$100.00
Half column	8.00	10.00	20.00	60.00
Quarter column	5.00	7.00	15.00	30.00
Three inches	3.00	5.00	10.00	30.00
Two inches	2.00	4.00	8.00	20.00

Business cards \$1.00 per month payable
quarterly.

The above rates do not apply to auction
sales, general sales, tenders, meetings
of local bodies, or anything of a temporary
nature. Transient advertisements, 10 cents
per line first insertion, 5 cents per line each
additional insertion. Yearly advertisements
are to be charged monthly, if often
advised.

Business local, 50 cents for first twenty-
five words, 2 cents for each additional word.
The publisher reserves the right to refuse
to insert advertisements of a questionable
or objectionable character.

Address, JAMES WEIDMAN,
Qu'Appelle Station, Assin-

E. J. WEIDMAN, Proprietor.

AGRICULTURAL SOCIETIES

In our advertising columns will
be found the conditions under which
the agricultural societies of the
Northwest Territories may obtain
their share of the \$10,000 granted
by the Dominion Government. As
will be seen the grant is a liberal
one. We do not think that there
will be any society so poor that it
cannot obtain the full \$250 allotted
to each society on condition of
having a membership of at least
fifty and subscribing at least \$83.33.

All the towns in the territories
will thus be able to offer good prizes
and there is no doubt that there
will be excellent shows, for the crops
in every part of the territories are
good. There will not be a single
centre of an agricultural population
that will not be able to make a
first class exhibit. It is the intention
of the agricultural societies of
Assiniboia, aided by Mr. W. D.
Perley, M. P. for the Eastern division,
that the outside world will see
and hear of what Assiniboia can do in
the way of agricultural products.

Leading men and press representa-
tives have been invited to take in
the shows, which are so arranged
on successive days that each one
can be visited. The crops being
good the visit of these men will do
much to give the lie to the false
reports that have been going abroad
respecting the agricultural capabili-
ties of Assiniboia, and will be a big
advertisement for the benefit of our
vacant farm lands.

THE CROPS.

It appears that reports have been
sent down to some Ontario papers
that the crops in the Northwest
Territories this season are a failure
while those in Manitoba are excel-
lent. We can only trace the lie to
the fact that there appears to be
a strong desire on the part of those
interested (of course) in landing
Manitoba to the skies at the
expense of the rest of the North-
west. The object is to prevent
immigrants from coming further west
and keeping them in Manitoba.

The fact that generally the average
yield of grain may be somewhat
higher in Manitoba this year than
in the Territories, does not do away
with the other fact that in another
year a strict comparison may have
resulted favorable to the Territories.
It is of course reasonable to expect
in a country of such immense dis-
tances as exist in Manitoba and the
Northwest that the climatic condi-
tions will differ in some portions.
While one part may one year be
blessed with all that is needed to
make the earth produce bountifully
so overflowing, while elsewhere
nature may be harsh to her bless-

ings, another part the next year
may lead in the yield of the products
of the soil. As one swallow does
not make a summer, neither does
the fact that Manitoba this year
may have a few more bushels to the
acre than the Territories, decide
that next year the reverse may not
be the case. But to be more par-
ticular. Reports from every locality
in the Territories where farming is
carried on, go to show that the
average yield this year will be as
high, if not higher, than the general
average yield of other grain-growing
portions of this continent. It is true
that in every locality there are
a few isolated cases of failure,
but they are only as an exception
that would prove the rule. Oats will
be the best use of the money.
At his suggestion the dates for holding
the fall shows in Assiniboia
have been arranged on successive
days, commencing at Moosomin on
the 28th September and following
in order westward including Regina
on the 10th and 11th October. The
object of this arrangement is to
give an opportunity to leading men
in the east and representatives of
the press to visit all the shows.
This much having been done Mr.
Perley desired the cooperation of
the societies in carrying out the
scheme to a successful issue. The
meeting of delegates was convened at
13.30 o'clock with Mr. Perley as
chairman and Mr. L. Thompson, of
Ellisboro, as secretary. A letter
was read from Hon. Mr. Carling,
Dominion Minister of Agriculture,
intimating his intention if possible
to be present, and also a letter from
Mr. W. C. Van Horne, of the C. P.
R., stating that free passes would
be granted on recommendation to
the leading newspaper representatives
in Eastern Canada who would
attend the exhibitions. Fourteen
of the leading newspapers of Ontario,
four of Quebec, five of New
Brunswick, three of Nova Scotia
and two of Prince Edward Island
were selected to be invited to send
representatives to report the
exhibitions. It was also decided to
continue correspondence with Prof.
Saunders and others requesting
them to attend the shows. The
question of suitable entertainment
and the transportation of the
delegation of eastern men from place
to place was discussed. These pres-
ent at the meeting, with the Sec's.
of the different agricultural societies
as ex-officio members, were appointed
a permanent committee to carry
out the arrangements made, with
Mr. Perley as chairman and Mr. S.
V. Bray as secretary, when the
meeting adjourned.

Newspaper men are heartless.
They soon size-up their contemporaries.
The leading Northwest
papers having excommunicated the Regina
Leader, it would be a pity to
rankle the wound. So let him
alone to wallow in the mire.

Our devil has undertaken the
task of downing the Leader imp. We
doubt if his capabilities for lying,
being trained in a different atmos-
phere, are equal to the Leader imp,
and have therefore instructed him
to stick to the truth even though he
should himself be the vanquished.

It is reported that the Leader editor
has been married lately, but yet he
does not appear to be happy. The
PROGRESS is still gall and wormwood
to his soul. His lamentation is—Oh, that I had not stirred up
that Qu'Appelle hornet's nest, and
perhaps I would not have fallen into
the bad graces of about all the
other Northwest papers!

Replying to the question asked
by the Regina Journal: If its editor
will look back over its file, he
will find that in a previous issue it
was made to appear that Mr. Perley
was opposed to the National Policy,
and then the Journal of July 28th
said "the most that either have said
was that Mr. P. then objected (in
1885) to the excessive duty on agri-
cultural implements." The latter is
precisely the point for which we
contended.

The Toronto Mail has had some
lying reports of the crops from the
Northwest Territories of late. One
report says the crops outside the
provinces of Manitoba are a total
failure. This is an unadulterated
lie, and the Mail will have to look to
it that it is not made the tool of
interested parties to blemish Manitoba
at the expense of the territories.

That paper should be careful not to
gain the unenviable reputation of
the Globe for heavily discounting
the agricultural capabilities of the
Northwest.

AGRICULTURAL SHOWS.

At the request of Mr. W. D.
Perley, M. P. for East Assiniboia, a
number of delegations from the various
agricultural societies met at
Wolseley to make arrangements
for carrying out a scheme proposed
and started by Mr. Perley to systematically
advertise the agricultural
resources of Assiniboia. The
Dominion Parliament at its last
session granted \$10,000 to be
distributed among the agricultural
societies of the Northwest, and it is
Mr. Perley's intention to see that
the best use is made of the money.

At his suggestion the dates for holding
the fall shows in Assiniboia
have been arranged on successive
days, commencing at Moosomin on
the 28th September and following
in order westward including Regina
on the 10th and 11th October. The
object of this arrangement is to
give an opportunity to leading men
in the east and representatives of
the press to visit all the shows.
This much having been done Mr.
Perley desired the cooperation of
the societies in carrying out the
scheme to a successful issue. The
meeting of delegates was convened at
13.30 o'clock with Mr. Perley as
chairman and Mr. L. Thompson, of
Ellisboro, as secretary. A letter
was read from Hon. Mr. Carling,
Dominion Minister of Agriculture,
intimating his intention if possible
to be present, and also a letter from
Mr. W. C. Van Horne, of the C. P.
R., stating that free passes would
be granted on recommendation to
the leading newspaper representatives
in Eastern Canada who would
attend the exhibitions. Fourteen
of the leading newspapers of Ontario,
four of Quebec, five of New
Brunswick, three of Nova Scotia
and two of Prince Edward Island
were selected to be invited to send
representatives to report the
exhibitions. It was also decided to
continue correspondence with Prof.
Saunders and others requesting
them to attend the shows. The
question of suitable entertainment
and the transportation of the
delegation of eastern men from place
to place was discussed. These pres-
ent at the meeting, with the Sec's.
of the different agricultural societies
as ex-officio members, were appointed
a permanent committee to carry
out the arrangements made, with
Mr. Perley as chairman and Mr. S.
V. Bray as secretary, when the
meeting adjourned.

The McLeod Gazette or any other
paper can abuse us with impunity, for
we never could offer any such
rewards as the Regina Leader is
putting up for the capture of the
person or persons who called some
other person a "ruffian." See what
it is to be wealthy, Buffalo Bill,
who shouts for the unfortunate
TIMES could claim that reward, but
he won't, or other words to that
effect. But for heaven's sake, old
Leader, are you in earnest? The
Qu'Appelle Progress has evidence
enough to hang you.—Medicine
Hut Times.

Canadian-American: It was
when that sturdy Liberal, George
Brown, was its editor that the
Toronto Globe denounced Commercial
Union and said that "men who advocate
a base surrender of their
country for money do not cease to be
disgusting, though they become
so ridiculous when it is evident they
are duped by their own sordid
imagination." George Brown wrote
in this strain because he had faith
in his country. He was an ardent
Liberal and a strong partisan, but
he never proposed to settle the
Ship of State when things did not
go to suit him. Thoroughly Canadian
in his sentiments under George Brown's management, the
Globe never felt called upon to support
a project of the character of
continental free trade. And Mr.
Brown preached his doctrines with
such spirit and earnestness that
thousands of Canadian Liberals will
never consent to a union with the
United States to the injury of Great
Britain.

We understand correspondence is
being had with Oliver Optic, James
Otis, Horatio Alger, Jr., and other
eminent writers for the young, in
order to secure their interesting
contributions for the Mayflower.
The Mayflower will be sent on trial
for two months for only ten cents.
Try it.

Canadian American: A Canadian gentleman connected with a
large financial institution in New
York, writes on commercial reciprocity as follows:—"I have
given a serious thought to commercial
union, at it will not answer for
either country, and would not pass
in this. It would benefit the lumber
interests of Canada, the barley
growers around Kingston, the
potato growers in Nova Scotia, and
maybe some particular classes of
farmers in the neighborhood of the
big cities on the lakes. It would
ruin your flour mills, and in five
years there would not be a manufac-
tory of any description open in any
part of Canada. A big book might
be written in proof of this, by any
one who would take the trouble to
do it."

Nor-West Farmer: One of the
most gratifying decisions yet
come to by a local municipality is
that of Oaklands, in ranges 17, 18
and 19, south of the Assiniboine, for
the encouragement of tree planting.
The Manitoba Municipal Act, 1886,
contains ample provisions for the
encouragement of roadside tree
planting, and for their subsequent
protection, and to Oaklands belongs
the honor of heading the procession
of municipalities that it is to be
hoped will before long avail themselves
of its provisions. They have enacted
that any ratepayer who shall break
and afterwards properly cultivate a strip of land from eight
to eighteen feet wide for that purpose,
shall be allowed one day's statute
labor and seed free of cost to
sow two rows of trees thereon. It
is said that fifty miles are already
under process of preparation, and
will be seeded at the earliest proper
opportunity. This resolution does
great credit to those who have
undertaken to carry out this enterprise,
which is calculated to add so
much to the beauty of their district,
as well as to the value of their farms.

THE MAYFLOWER.

The Congregational Sunday
School & Publishing Society began
this year the publication of a four-
page weekly for youngest readers
in the primary department of our
Sunday Schools, the name of "The
Mayflower" being given as appropriate
to the "Pilgrim" Series of publications
for Sunday schools, of which it was to
form a part. The Society has recently learned that a newspaper bearing the same name
had for some years been published at Yarmouthport, Mass., by Mr. George Otis. This had led to a friendly correspondence, and Mr. Otis, with evident sympathy, in the
work of the Society, cordially acquiesces in the use which is made of the title "The Mayflower," in connection with the juvenile publications above referred to. Acknowledgment is due to Mr. Otis for his great courtesy in this matter, and it should be clearly understood that his right to the title "The Mayflower," as applied to a newspaper, is in no way affected by the use which is made of it, with his knowledge and consent, by the Congregational S. S. & Pub. Soc'y. Mr. Otis' "Mayflower" is an attractive weekly paper (several) of eight pages, and is intended for the family. It has a large variety of reading matter adapted to old and young, carefully edited, and its price per year, places it within the reach of many readers who cannot afford the higher priced papers.—Congregationalist, May 26th, 1886.

We understand correspondence is
being had with Oliver Optic, James
Otis, Horatio Alger, Jr., and other
eminent writers for the young, in
order to secure their interesting
contributions for the Mayflower.
The Mayflower will be sent on trial
for two months for only ten cents.
Try it.

HOME & GOSSIP.

QU'APPELLE.

—Thunder.
—And lightnings.
—How it rained Sunday.
—Harvesting is in full swing.
—The voice of the self-binder is heard in the land.

—Mr. John Grieve shows a sunflower fourteen inches in diameter.

—Prof. Tanner left here for British Columbia by the west bound train on Monday night.

—Mr. Tharvel Thurston has obtained the contract for building the McLean school, his tender being the lowest.

—Qu'Appelle Council of Royal Templars is flourishing. There were five initiations at the last meeting on Monday evening.

THE PROGRESS chromatic poster print is taking the lead. Agricultural posters were issued from the office this week in four colors.

—Quarterly meeting in the Methodist church next Sunday morning at 10:30 o'clock, and the business meeting on Monday at 16 o'clock.

—That manure heap on the west of Walsh street has not yet been removed. Why does not the inspector summon the proprietor before a J. P. under the nuisance law?

—Mr. B. Tanner, brother of Prof. Tanner, has taken up his residence about three and a half miles east of this town. He has had a very fine house built for himself on a beautiful location.

—Mr. and Mrs. Angus Raymond, of the Leland House, returned on Saturday evening last from a month's trip in the east. They were met at the station by a number of friends to welcome them home.

KEEP COOT? An ice cream social will be given by the ladies of the Methodist church on Friday evening next 19th inst., at 20 o'clock. The Program will consist of music, readings, addresses and splendid ice cream. Entrance fee 25 cents.

—Farmers who are disheartened by last years failure are this year preparing all the ground they can for next season's sowing, the crop this year having turned out better than any one thought was possible with the surface of the earth as dry as it was in the spring.

—Mr. Thos. King, who is on the farm of Mr. E. W. Warner, about two miles and a half north of here brought to our office a sample of his wheat. It is about three feet and a half long and the heads are well filled with a fine plump grain. The yield will be 25 bushels to the acre.

—Qu'Appelle can do the handiest thing in banquets. When the home Cricket Club, ~~entertained~~ the Winnipeg eleven to a dinner at the Leland House, the captain of the Winnipeg team expressed his surprise at the appointments of the table; he said that he did not think it was possible to get up such an magnificent spread west of Winnipeg.

—Mr. W. A. Webster, a farmer from near Kingston, Ont., paid our town a visit on Tuesday. He has been prospecting parts of Dakota, Manitoba and the Northwest, and speaks highly of what he has seen in our country. He said to a reporter of THE PROGRESS that the best 500 acres of wheat that he had ever seen in any country in one field he had seen this season in the district of Assinibina. Mr. Webster has travelled considerably in the United States and has been in every county in Manitoba as well as visiting different points along the C. P. R. as far west as Regina, and says that the western portion of the ~~west~~ part north of the 43rd parallel is agricultural purpose ~~as~~ far ahead of the country south of the line, excepting of course a tier of counties in northeastern Dakota, which are similar to the provinces of Manitoba which they adjoin.

—A special train went west on Tuesday morning having on board Sir George Stephen, President, and Mr. W. C. Van Horne, Vice President of the C.P.R.

—Mr. W. Bell, of Edgeley, is making an excellent dash churn attachment for the old fashioned upright churn. This appliance turns the work of the old milkman into child's play. One of the machines may be seen at THE PROGRESS office.

—A lecture will be delivered in the Methodist church next Tuesday evening, the 23rd inst., by Miss (Rev. A.) Andrews, under the auspices of Qu'Appelle Council, Royal Templars of Temperance. Subject—"The Woman's Crusade in Ohio." The object of the lecture is to arouse the interest especially of the ladies in temperance work, and it is proposed to organize a local branch of the Woman's Christian Temperance Union at the close of the lecture. A collection will be taken up on behalf of the W.C.T.U. at the close of the lecture.

MURDERERS CAUGHT.

About ten days ago Sergt. Macpherson and two mounted policemen followed the McLeish murderers across the international boundary line near Moose Mountain, being about nine hours behind them. They of course had not the power to arrest them in the States, and did not receive any assistance from the authorities there, though the murderers were in the same locality. At the time of crossing the line there are said to have been four of the party, two riding on stolen horses and two walking in turns. Not receiving any encouragement from the Dakota officials, Sergt. Macpherson returned to Brandon and notified the Government, and the necessary authority having been obtained, the Sergt. again started across the line and has found the murderers taken in charge by the United States authorities. Extradition papers are being taken out and the prisoners will be brought back to the Territories for trial. Sergt. Macpherson had tracked the murderers all the way from the Assinibina river, and along the route found parties who had given them shelter and assistance in escaping, and who, for so doing, may find it interesting before the murderers are hanged. Sergt. Macpherson deserves the highest praise for having run down the red handed criminals.

A WARNING NOTE.

Dr. O. C. Edwards has written a letter on the sanitary condition of the town which we deem it prudent to insert in our columns. He refers to the cases of typhoid fever which have developed here recently and the origin of the disease. His reference to the want of cleanliness which was manifest here last spring is also too true. A scarcely less mild term can be used than criminal negligence in speaking of the want of care exercised in allowing manure and decaying vegetable and other matter to lie around the back yards and stables in the heart of the town to contaminate the air, which here is naturally so pure, and pollute the water that falls upon the surface and works its way into the wells. We may be censured for giving this matter publicity, but no amount of hushing up the facts will abate the evil. It is better that we should be brought face to face with this question now, disagreeable as it may be, in order that more stringent measures may be adopted in future to prevent a recurrence of the causes of typhoid. It is better while we are in the youth of our growth as a town that we are taught by experience to use all sanitary means preventative of disease, than to become so absolutely neglectful through immunity from sickness that when our population has become largely infected, we should have such an epidemic of disease that the results would be vastly more serious than the few cases at present in town. As Dr. Edwards says this is a disease that can be prevented, and there is therefore no excuse for its existence. It is unfortunate that most frequently it is not those who are guilty of the

negligence causing the disease that are attacked, but more often those who are in no way responsible. If the results of their negligence were only visited upon themselves, then there would not be much cause for complaint, but such is not the case, and therefore the general public must take hold of this matter, and that stringent sanitary laws are made and vigorously enforced. While we do not wish to cause needless alarm, we have written thus strongly in order that our citizens may realize the importance of thorough cleanliness.

Correspondence.

To the Editor of THE PROGRESS.—

Sir: The fact that five cases of typhoid fever have developed here recently and the inference from that being that others will follow, should be a matter of concern in this place. It is too late now to say that vastly more care should have been exercised in the spring in getting the back yards into a proper sanitary state. The present outbreak will surely impress that lesson. Typhoid belongs to the order of diseases that should be prevented and when care is exercised to keep water absolutely pure and to remove all animal and vegetable matter from yards and cellars there would be no outbreak of this disease. It is by soaking principally that wells become poisoned. The question may be asked what is to be done now? I would reply see your back-yards and cellars are thoroughly clean. Do not use water either for drinking or cooking where there is the slightest suspicion of the well having become poisoned by soaking from carelessly left or placed manure. If you place as I understand manure has been actually used for packing about wells) or closets too close to wells, or decomposing matter of any kind. What I say is just as applicable to those living on farms as those in towns. The yards may be so neglected that by soaking the wells will become contaminated and this treacherous and often deadly disease will follow.

The late Dr. Charles Murchison traced an epidemic of typhoid in London, England, to the following cause, and when it was stopped the spread of the disease was stamped out. The milk pails of a certain farm of a large corporation engaged in that business had been washed with water taken from a well that had become poisoned by soaking from a closet too close to the well and into which the stools from a typhoid case had been cast. This corporation was compelled to close supplying milk from that farm till matters were rectified and the epidemic was immediately stopped. We cannot grasp the secret poison of scarlet fever or measles and stop its spread, but most certainly when careful sanitary laws are kept in force this pernicious disease of typhoid should and I think it only requires a slight exercise of memory to convince any one that the most sanitary laws were absolutely set at defiance by the careless negligence of the people of our town in the months that have passed since the reach while they were yet too young to fly, and so starved to death. To those left us. As long as we depend on water from wells in back yards so long will ceaseless vigilance have to be exercised or typhoid will follow as sure as night follows day.

Yours, etc.,
O. C. EDWARDS, M. D.

KATEPWAA.

—Harvesting is now general in this district and many of the farmers are reaping in a bountiful supply of grain, though some have suffered considerably from the ravage of the destructive gophers. —Sunday next, the 21st inst., being the day appointed by His Lordship the Bishop of Qu'Appelle for the dedication of the new church at the new Douglas. He came in to the mission conference but arrived too late. He reports encouraging progress among the 400 Indians embraced in that reserve. They planted quite a large area with wheat last spring; and it promises to be a splendid crop if unimpeded by frost. Mr. Cook says there are fields of grain at Day Star's reserve, equally as good as anything he has seen in Manitoba. There has also been a great crop of potatoes, and it is anticipated that fully 2,000 bushels will be stored

WOLSELEY.

—The Wolseley hotel is being refitted and refurbished and will shortly be reopened in first-class style.

—Mr. G. L. Dodds is having a great clearing sale, 20 per cent off dry goods and hardware and 10 per cent off groceries.

—Mrs. W. Cook is an adept at oil painting either landscapes or flowers, and will give instructions in the art to any desiring lessons.

—Mr. G. L. Dodds has decided to remove to Southwestern Manitoba. He will locate at the C. P. R. crossing of the Souris river.

—Mr. J. P. Bill is increasing his herd of cattle and he proposes next spring to start a cheese factory. This will make a local market for the product of the farmer's cows.

—The farmers are busy harvesting. About two weeks ago a hail storm destroyed several fields of excellent grain in the vicinity of Moffat. There are a few fields injured by gophers, but generally there will be a fair crop.

—Mr. W. D. Cook is bringing in a thousand head of French Merino sheep from the United States. He has gone to meet them. The farmers will have a good opportunity of stocking themselves with some fine animals, which will be a profitable investment.

—The regular quarterly meeting of the Wolseley circuit was held in the Methodist church on Sunday last. Rev. A. Andrews, of Qu'Appelle, officiating. The business meeting was held on Saturday. Rev. F. Barnes took Mr. Andrews' appointments at Qu'Appelle.

—Messrs. Cook and Cole, the proprietors of the Wolseley mill, propose to sink a tank and run into it a pipe attached to the C. P. R. force pump and tank in order to have a full supply of water at all times without being under the necessity of hauling water from the reservoir.

—Great crowd attend G. L. Dodds clearing sale. Stock must be cleared out, as he is negotiating for a large stock in Manitoba.

BATTLEFORD.

Saskatchewan Herald:

—On Friday last Mr. Thos. Macfarlane and party arrived from Swift Current with two hundred high-grade two and three year old heifers and six thoroughbred shorthorn bulls. The herd averages a higher quality than any yet imported here, and there have been some very good ones brought in. They were divided between Macfarlane Brothers, Messrs. Wyld & Bourke, B. A. Lawson, J. E. Beliveau and Goodwin Marchand.

—Some weeks ago a colony of grasshoppers hatched out on the plains between the Bush and Eagle Creek, on the Swift Current trail, and for the distance of about a day's travel devoured every green thing. But their appetites were stronger than their growth; they ate down all that was within their reach while they were yet too young to fly, and so starved to death. To those left us. As long as we depend on water from wells in back yards so long will ceaseless vigilance have to be exercised or typhoid will follow as sure as night follows day.

Yours, etc.,
O. C. EDWARDS, M. D.

TOUCHWOOD HILLS.

Winnipeg Free Press.

Rev. Gilbert Cook, Church of England missionary among the Cree Indian reserves at Touchwood Hills, is at the New Douglas. He came in to the mission conference but arrived too late. He reports encouraging progress among the 400 Indians embraced in that reserve.

They planted quite a large area with wheat last spring; and it promises to be a splendid crop if unimpeded by frost. Mr. Cook says there are fields of grain at Day Star's reserve, equally as good as anything he has seen in Manitoba. There has also been a great crop of potatoes, and it is anticipated that fully 2,000 bushels will be stored

by the agents for use next season. The number of these Indians has been somewhat increased by about fifty French half breeds who were recently enfranchised. Good schools have been erected on Gordon and Muskegwan's reserves, and the material is now being taken up for a school at Day Star's. As yet no teachers have been appointed, but it is expected that James Slater, of Poplar Point, will be appointed teacher at Day Star's reserve. These tribes are still healthy and Christianizing them is very slow work. Both the Catholic and English churches have missions among them.

AUCTION SALE.

The undersigned has received instructions to sell by public auction on Monday, Aug. 22, 1887. The following articles, viz.: Lot block 161, Qu'Appelle, with a good frame house 18x22 and stable 12x16; 2 milch cows; 1 heifer; 1 pig; 1 cooking stove with pot, 1 side-board; 1 longe; 1 table; 1 chair; 1 bedstead; 1 sewing machine; crockery, glassware, and other articles, property of Mr. Richard Smith. Sale to take place on the above premises at 13 o'clock. Terms cash.

G. S. Davidson, Auctioneer.

NOTICE

THE CO-PARTNERSHIP EXISTING between the undersigned and business at Indian Head as general traders and Merchants, under the name and style of Murray & Brooks, is hereby dissolved by mutual consent, the same to take effect from the 1st January, 1887. All debts so far unpaid by Mr. F. V. Murray, was also authorized to collect all accounts, and sue, etc. due the late firm.

—Messrs. Cook and Cole, the proprietors of the Wolseley mill, propose to sink a tank and run into it a pipe attached to the C. P. R. force pump and tank in order to have a full supply of water at all times without being under the necessity of hauling water from the reservoir.

—Great crowd attend G. L. Dodds clearing sale. Stock must be cleared out, as he is negotiating for a large stock in Manitoba.

Horses for Sale.

TEAM CLAIDES geldings 5 and 9 years of age; first class for driving or farm work, kind and gentle single or double, at reasonable offer accepted.

Witness, GEO. P. MURRAY,
W. B. DICKEN,
EDWIN J. BROWN,
Indian Head, August 8th, 1887.

W. J. SEARS.

Agricultural Societies in the North-West Territories.

IN order to give effect to the vote of the Session of Parliament of \$10,000 for Agricultural Societies in the North-West Territories, the following amount and regulations have been decided:

1. An Agricultural Society having members, each of whom shall be liable for a sum of \$1.00, for a membership of \$1.00, and \$1 for every additional member of \$1 each, not exceeding eighty-four members; or, for a subscription of \$83.33, the same having membership as above would be liable to receive \$250, which is the amount that shall be paid from the value of any one's society.

2. It is a condition of any payment of the preceding section that the Treasurer and Agricultural Society shall be bound to furnish, not later than the 1st day next, to the Minister of Agriculture, a statement showing:

(a) The name of the several societies.

(b) A copy of the list of the members of the Society, with the amounts and paid, set opposite the names of the members, and a declaration made before a Justice of the Peace, that it is true, and that the amounts have been paid.

By order of the Minister of Agriculture,
JOHN LARK,

Secretary of the Department of
Department of Agriculture,
OTTAWA, 5th August, 1887.

LOST

FROM BEAVER HILLS STORES,
Sec. 32, Twp. 25, R. 6,
make tracks N. E. and go
down hill and cross road.

Suitably rewarded.

Address: BOUCHIER & SONS,
Indian Head, N.W.T.

For further details apply to the Secretary, St. John's School.

Near Qu'Appelle Station.
